

Secondary Tertiary Pathways 2024

Te Pūkenga

Introduction

Secondary Tertiary Pathways (STP) at WITT Te Pūkenga is your link between secondary school and tertiary study. We work with secondary schools, trainers and industry to help you identify career pathways and explore further opportunities for study and training.

If you're in Year 11 – 13 and you are focused, committed and keen to work in a practical environment then we have an option for you! Whether you want to test out a career or start gaining industry knowledge and practical skills we have options to suit.

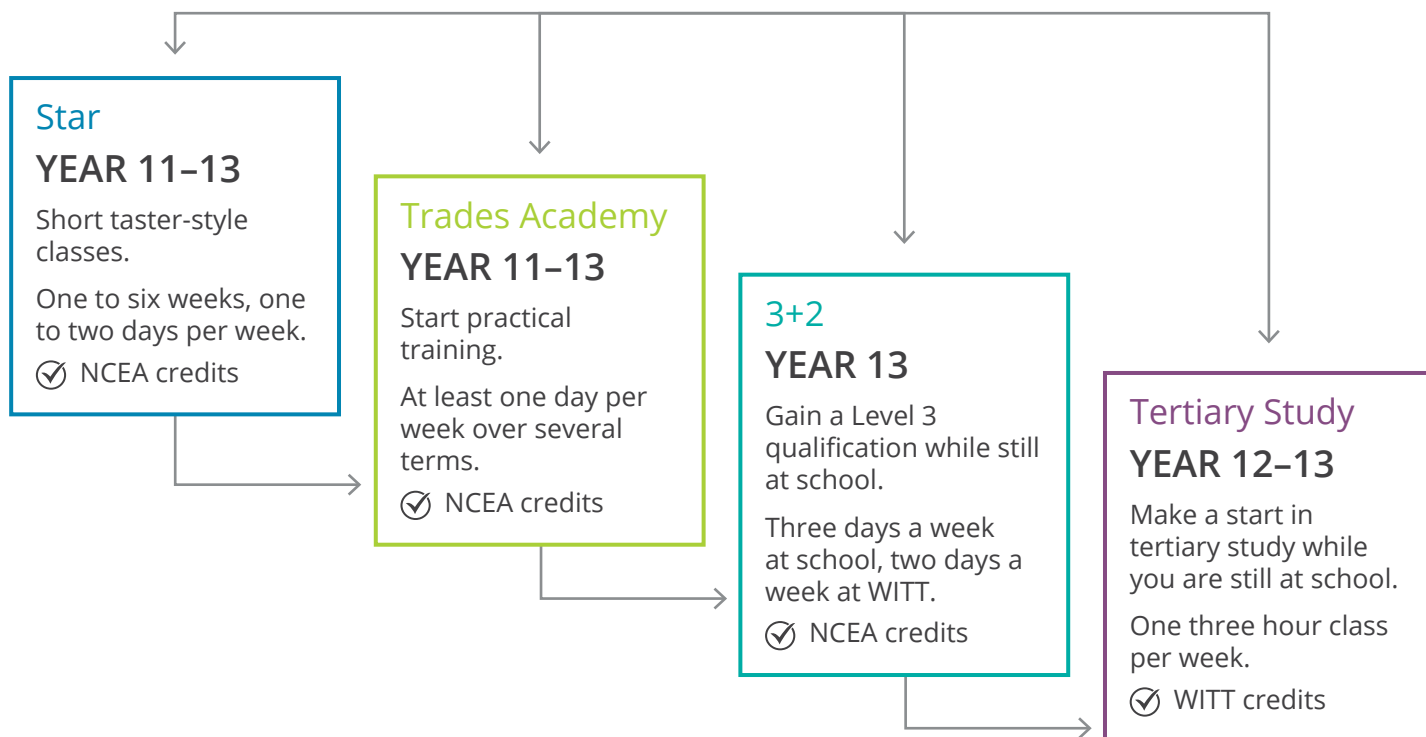

Benefits:

- Experience tertiary courses while studying at school
- Gain credits towards NCEA while studying in a tertiary environment
- A fees-free tertiary education
- Fees free transport provided
- A head start on a career while still at school
- Gain work experience and links with local industry
- More choices to include Vocational Pathways in your study options
- Become 'work-ready'
- Gain one course towards a degree or diploma (see page 22) without impacting your first year 'Fees Free'

What does it cost?

Courses are FREE for students but there may be some course related costs (e.g. work boots).

Choose the best option for you

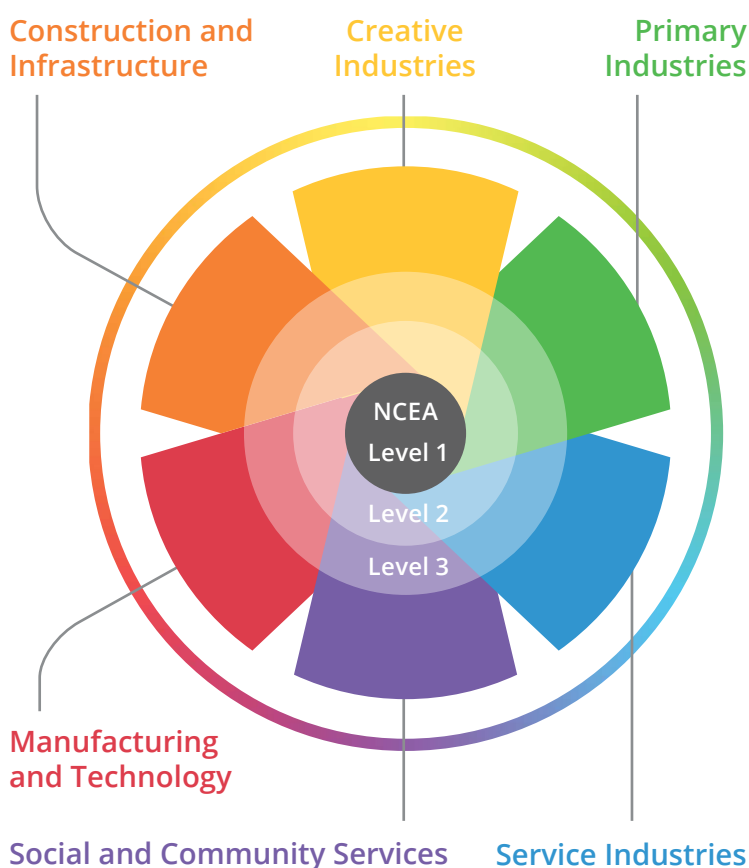

Vocational pathways

Vocational Pathways provide a simple way to understand how your studies align to industry. They enable you to see how your learning is relevant for a wide range of jobs and study options in six broad sectors of industry.

The Vocational Pathways are the product of a partnership between government agencies, the industry training sector, secondary and tertiary representatives, industry, and employer representatives.

Vocational Pathways provide tools so you can develop a career map and plan what you may need to study to meet your goals and move into further study and the workforce.

Disclaimer: WITT Te Pūkenga reserve the right to withdraw or adjust any of the programmes listed, alter start dates or fee schedules and make other changes as it may deem desirable or necessary, without prior notice. All programmes listed are subject to sufficient number of enrolments and completion of all approval and accreditation requirements.

WITT is part of Te Pūkenga – New Zealand Institute of Skills and Technology. Programmes offered by WITT and other subsidiaries of Te Pūkenga are under review as part of the reform of vocational education training. This is to ensure they are portable, consistent, and aligned with the needs of industry. The programmes, short courses and micro-credentials featured in this guide may change over time.

STAR

For Year 11 students, but Year 12 and 13 students are also welcome.

STAR courses are short taster style classes that help you to explore career options and make informed decisions about your future schooling, work or study. Courses take place over one to nine weeks and are only a few days in total.

Benefits:

- An easy way to try out a career and provide options for vocational pathways
- Get practical, hands-on, work-based experience
- Experience a tertiary learning environment while still at school
- Gain NCEA credits

What's next?

Trades Academy, 3+2 or Tertiary Study at School.

All courses are run at the New Plymouth campus unless specifically stated. Programmes are subject to change.

Creative Industries

Drawing

 Term 3
6 weeks

Use drawing methods and skills for recording information using wet and dry media.

 1 day per week – 9am - 2:30pm

Construction & Infrastructure

Students must wear safety boots in all workshop classes

Carpentry

 Term 2 & 3
3 weeks

Gain an introduction into the carpentry and construction industry. The course allows you to undertake a small building, construction, and allied trades (BCAT) project to become familiar with hardware and fastenings.

 1 day per week – 9am - 2:30pm

Painting and Decorating

 Term 3
3 weeks

This course has been designed to give you an introduction to the painting and decorating industry. It will allow you to undertake a painting and decorating project to familiarise you with basic tools and equipment used within the industry.

 1 day per week – 9am - 2:30pm

Plumbing

 Term 3
3 weeks

Get an introduction to plumbing, gasfitting and drainlaying. There will be a number of practical activities to demonstrate the nature of the work and act as a taster for the Trades Academy and full-time courses.

 1 day per week – 9am - 2:30pm

Manufacturing & Technology

Students must wear safety boots in all workshop classes

Automotive

 Term 2 & 3
3 weeks

Work on real engines and cars and gain insight into a career as an automotive professional. Over the weeks, you'll dismantle, inspect and re-assemble an engine in our fully-equipped workshop.

 1 day per week – 9am - 2:30pm

Electrical

 Term 2 & 3
3 weeks

The skills demonstrated in this course apply to most electrical and electronic trades. You will perform soldering procedures and will gain knowledge of electrical safety and safe working practices in an electrical workplace.

 1 day per week – 9am - 2:30pm

Mechanical Engineering

 Term 2 & 3 3 weeks	Work in our fully equipped mechanical engineering workshop. Develop core fabrication and mechanical skills in a practical environment. You will undertake a fabrication project and get an insight to the pre-trade programmes.
 1 day per week – 9am - 2:30pm	

Welding & Fabrication

 Term 2 & 3 3 weeks	Learn the skills required to use the gas metal arc welding or MIG process safely. The course is suitable for those who wish to enter the welding or engineering industry.
 1 day per week – 9am - 2:30pm	

Service Industries

Bakery

 Term 2 and 4 6 weeks	The STAR Bakery course will give you an overview and introduction to baking goods in a commercial environment. You will be equipped with health and safety skills and will learn what you need to do to pursue a career in chef training/baking.
 1 day per week – 9am - 2:30pm	

Beauty Therapy¹

 Term 2 6 weeks	The course is designed to give you an introduction to beauty treatments such as mini facials, nail file and paint, hand massage and eyebrow grooming. You will also learn personal presentation while gaining elementary skills.
 1 day per week – 9am-2.30pm	

Cookery

 Term 4 6 weeks	Our STAR Introduction to Cookery Programme is designed for students who are interested in hospitality and cookery as a career path. This programme gives an insight into what is needed to become a chef, and will give you a feel for working in a commercial kitchen.
 1 day per week – 9am - 2:30pm	

Hair, Beauty and Makeup¹

 Term 2 & 3 6 weeks	The course is designed to give students an introduction into how to perform a manicure, learn basic make-up application techniques and style long hair using heated tools. You will also learn personal presentation while gaining elementary skills.
 1 day per week – 9am-2.30pm	

Hairdressing (New Plymouth)¹

 Term 2 6 weeks	This course is designed to give you an introduction to the hairdressing industry. You will learn personal presentation and gain elementary skills.
 1 day per week – 9am - 2:30pm	

Hospitality – Barista*

 Term 3 9 weeks	 Term 4 3 weeks*	This course is designed to give you an introduction to the hospitality industry by providing the opportunity to learn how to use commercial espresso coffee equipment and prepare espresso beverages. You will also learn how to prepare and present espresso beverages for service. <i>*Available in South Taranaki or for specific groups by arrangement.</i>
 1 day per week – 9am - 2:30pm *3 days per week – 9am - 2:30pm		

Hospitality - Front of House*

 Term 3 6 weeks	This course covers a basic understanding of hospitality terminology, equipment, personal presentation, preparation and clearing of areas for table service in a commercial establishment.
 1 day per week – 9am - 2:30pm	<i>*Also available in South Taranaki by arrangement.</i>

Make-Up¹

 Term 2 6 weeks	This course is designed to give you an introduction to the make-up industry, learning basic make-up application as well as exploring your creative side; applying bold on-trend techniques.
 1 day per week – 9am-2.30pm	

Sport & Fitness

 Term 3 4 weeks	Start learning skills for a career in sport and fitness. Gain knowledge about exercise equipment and the professional gym environment.
 1 day per week – 9am - 2:30pm	

Primary Industries

Agriculture

 Term 3 3 weeks	This course will introduce you to a commercial farming environment. You will learn about animal behaviour, control and feed management.
 1 day per week – 9am - 2:30pm	

Forestry

 Term 3 6 weeks	This course will introduce you to the forestry industry. You will learn about forest harvesting operations and quality and value factors in logs.
 1 day per week – 9am - 2:30pm	

Rural Driving

 Term 3 10 weeks	Get ready to take the learner driving test. You will gain practical skills that you can apply in a rural driving situation. This course will build your confidence to sit the driving test.
 1 day per week – 9am - 2:30pm	

Skills for Living

Skills for Living

 Term 2 & 3 7 weeks	This course is designed to assist students with special learning disabilities to develop personal skills that will assist them to function productively within a tertiary environment in the future and to transition smoothly from secondary school.
 1 day per week – 10am - 2pm	<i>Leads to New Zealand Certificate in Skills for Living for Supported Learners (Level 1)</i> <i>Contact the Skills for Living team for more details</i>

¹ All students will be expected to perform services and have services performed on them

Trades Academy

For secondary school students studying towards NCEA Level 1 or 2. You should have a genuine interest in a particular vocational pathway.

In the Taranaki Trades Academy you come to WITT Te Pūkenga at least one day a week over several terms and gain NCEA credits. The learning takes place in a practical and hands-on environment using industry standard equipment and technology relevant to your chosen career path. Develop the foundation skills needed to progress to further study opportunities or move directly into employment.

Benefits:

- A head start on a Trades career while still at school and while achieving credits towards NCEA
- Experience a tertiary environment from the security of school
- A fees-free tertiary education
- Free transport provided
- Gain work experience – links with local industry
- Study at WITT one to two days per week (depending on the programme)
- More choices for you to include Vocational Pathways in your range of study options
- Become more 'work-ready'

You must attend an interview and create a personal education plan.

What's next?

3+2 or full-time tertiary study.

All courses are run at the New Plymouth campus unless specifically stated. Programmes are subject to change.

Creative Industries

If you are creative there are many opportunities in this industry, from working in visual and performing arts to roles in communications and events. People in this industry are cultural ambassadors for the country, they tell our stories and help shape the future.

Creative Arts – Digital Media (Level 2)

 Term 1 – 3	You will learn skills including; graphics, design, media and portfolio generation. Further study available in creative technology or digital technology at WITT. <i>Leads to New Zealand Certificate in Arts and Design (Level 4)</i>
 20 credits	
 Thursdays	

Radio Broadcasting (Level 3)

 Term 1 – 3	This course partners with local radio stations to provide an authentic experience and enabling you to get involved in a broadcasting environment. <i>Leads to Ara - Bachelor of Broadcasting Communications (Journalism)</i>
 25 credits (Level 3) 5 credits (Level 2)	
 Thursdays	

Choose this pathway if you enjoy:

- using communication skills, such as writing or presenting
- performing and entertaining people
- using creative, design and editing skills
- working with cultural materials and objects
- interpreting and developing other people's ideas
- using computers and design software
- working with people, including media and clients.

Jobs in creative industries:

- designer (graphic, animation, CGI), computer gaming, architecture, costume, stage and set, lighting and sound, advertising and branding, fashion
- actor, musician, singer, dancer
- film maker, photographer
- writer, composer, editor
- visual artist, sculptor
- radio broadcaster, journalist.

Construction & Infrastructure

If you enjoy teamwork, a varied workday and learning by doing then this could be the pathway for you. Work in this incredibly important industry is varied, rewarding and often physically active. You can take pride in playing your part to build, repair and maintain New Zealand from below the ground up.

Build a Bach (Level 2) (New Plymouth and Hāwera)

 Term 1 - 4	Gain experience in building, construction, carpentry, roofing, how to read and interpret plans, health and safety, plus hand and power tool use and maintenance. You will spend three days at WITT and work on building projects and a small dwelling. There is also an opportunity to participate in work experience. <i>Leads to New Zealand Certificate in Construction Trade Skills (Carpentry) (Level 3)</i>
 56 credits (mainly Level 2)	
 3 days per week	

Build a Bridge (Level 2)

 Term 1 - 3	You will work with the Talent Pipeline companies and NPDC to create a foot bridge for the community. <i>Leads to NZ Certificate in Infrastructure Works (Level 2)</i>
 21 credits (Level 2)	
 Thursdays	

Electrical (Level 2)

 Term 1 - 3	Learn to use electrical test instruments and the elements and processes of electrical circuits. You will perform manual soldering and de-soldering and gain knowledge of electrical diagrams. <i>Leads to New Zealand Certificate in Electrical Pre-Trade (Level 3)</i>
 23 credits (Level 2)	
 Thursdays	

Joinery (Level 2)

 Term 1 - 3	Gain knowledge of portable power tools, carpentry hand tools, timber machining equipment, timber, mechanical and non-mechanical construction equipment. <i>Leads to New Zealand Certificate in Construction Trade Skills (Carpentry) (Level 3)</i>
 22 credits (Level 2)	
 Thursdays	

Painting and Decorating (Level 2)

Term 1 - 3

18 credits (Level 2)

Thursday

Are you inspired by colour and want to start a voyage into a painting and decorating career? Jumpstart your journey and gain the basic skills to become a professional tradesperson. You will learn how to handle painting and decorating equipment and materials. You will also complete practical painting projects.

Leads to a Level 3 construction skills qualification in painting and plastering which is a pathway into an apprenticeship.

Plumbing (Level 2)

Term 1 - 3

19 credits (Level 2)

3 credits (Level 1)

Tuesdays

Learn introductory skills in residential plumbing and trades services. This course leads to the New Zealand Certificate in Plumbing, Gasfitting and Drainlaying (Level 3) or onto work places and a Level 4 apprenticeship.

Leads to New Zealand Certificate in Plumbing, Gas fitting and Drainlaying (Level 3)

Choose this pathway if you enjoy:

- physical work and working with your hands
- working with tools, machinery and equipment to do building, repair or maintenance work
- following and developing plans and specifications
- problem solving
- making calculations, and preparing estimates and quotes for costs and materials.

Jobs in construction and infrastructure:

- labouring, building, electrical
- carpentry, plastering
- painting, joinery
- scaffolding, roofing
- plumbing
- drafting plans, quantity surveying
- engineering
- road building and repair
- building and maintaining telecommunication and electricity networks.

Manufacturing & Technology

If you have an interest in making things work, are inquisitive and able to think outside the box then this may be the pathway for you. Covering a whole range of working styles from hands-on assembly to cutting-edge research, busy production lines to crafts and computer design, this pathway offers opportunities to make new discoveries and a practical difference to the world.

Automotive (Level 2)

 Term 1 - 3	<p>Learn about workshop practices, hazardous materials and knowledge of tools and equipment, lamps, wheel balancing, general engineering, automotive components and petrol fuel systems. You will also disassemble and reassemble an engine under supervision.</p> <p><i>Leads to New Zealand Certificate in Automotive Engineering (Level 3)</i></p>
 20 credits (Level 2)	
 Thursdays	

Engineering Trades (Level 2)

 Term 1 - 3	<p>Learn about engineering equipment, components and how to perform basic machining, fabrication and welding techniques in our fully equipped workshops.</p> <p><i>Leads to Engineering (Level 3) - Build a Trailer</i></p>
 18 credits (Level 2)	
 Thursdays	

Engineering Trades (Level 3) – Build a Trailer (New Plymouth and Hāwera)

 Term 1 - 3	<p>Aimed at students following on from Engineering Level 2. You will build on your capabilities in mechanical engineering to earn Level 2 and 3 credits while building a trailer. The programme includes low carbon steel welding, thermal cutting and automotive wiring.</p> <p><i>Leads to New Zealand Certificate in Automotive Engineering (Level 3); New Zealand Diploma in Engineering (Civil or Mechanical) (Level 6)</i></p>
 12 credits (Level 3) 18 credits (Level 2)	
 Mondays and Tuesdays	

Engineering E2E (Level 3)

 Term 1 - 4	<p>If you are considering a future in Engineering and are strong in Maths, Physics and Technology, complete the Engineering Fundamentals course. This course explores the range of engineering disciplines including the fundamentals of statics, dynamics and mechanical engineering concepts, stress and strain, deriving elastic properties from tensile test results and the properties of fluids, electrical voltage, current and resistance, and heat and energy transfer.</p> <p><i>Leads to New Zealand Diploma in Engineering (Civil or Mechanical) (Level 6)</i></p>
 Approx. 8 credits (mainly Level 3)	
 Thursdays	

Choose this pathway if you enjoy:

- wood, metals, textiles, chemicals or other materials
- food processing or production
- using technology to develop and monitor production
- working with your hands
- managing and planning production.

Jobs in manufacturing and technology:

- appliance servicing, designer
- electrician,
- mechanical engineer, environmental engineer
- machine fixing, fabrication
- logistics, machine operator
- packing, processing, production, planning
- telecommunications technician
- production technologist, medical technologist
- draughtsperson.

Service Industries

If you're a 'people person' then this could be the pathway for you. This diverse industry makes up a huge percentage of New Zealand's workforce. Experience in the service industry can take you around the world as well as giving you transferable skills to help you progress into great careers.

Barbering (Level 2)¹

 Term 1 – 3	Learn about budgets, the client journey, safety and hygiene and practical barbering applications at the basin and in the chair. Aimed at students Years 11, 12 and 13.
 20 credits (Level 2)	
 Fridays	

Beauty & Make Up (Level 2) (2 classes)¹

 Term 1 – 3	Learn to perform cosmetic services and facial treatments while recognising different facial skin types. Unpack current fashion trends related to beauty therapy and apply make-up techniques suitable for different occasions. <i>Leads to 3+2 Make-up and Skincare; New Zealand Certificate in Beauty Therapy (Level 4)</i>
 14 credits (Level 2) 4 credits (Level 3)	
 Thursdays or Fridays	

Cookery (Level 2)

 Term 1 – 3	Learn to prepare and cook delicious meals through a variety of methods from steaming, to poaching, frying and roasting in our full scale commercial kitchens. <i>Leads to New Zealand Certificate in Cookery (Level 3); 3+2 Cookery</i>
 22 credits (Level 2)	
 Thursdays	

Hairdressing (Level 2)¹

 Term 1 - 3	Learn how to perform a shampoo, treatment and scalp massage while gaining knowledge of work place requirements and personal presentation. Create different hairstyles using heated tools and increase your knowledge of different hair products. <i>Leads to New Zealand Certificate in Hairdressing (Salon Support) (Level 3)</i>
 3 credits (Level 1) 19 credits (Level 2)	
 Thursdays / Fridays (to be confirmed)	

¹ All students will be expected to perform services and have services performed on them

Restaurant Service (Level 2)

 Term 1 - 3

Learn how to prepare hot and cold beverages, elements of contamination hazards, service delivery, table service and menu types.

 24 credits (Level 2)

Leads to New Zealand Certificate in Food and Beverage (Level 3); 3+2 Food and Beverage

 Thursdays

Sport & Exercise (Level 2) (Pending approval)

 Term 1 - 3

Learn how the body works, through understanding basic anatomy concepts and applying these principles to real life movements. Utilise gym equipment and stretching techniques to practice your skills.

 17 credits (Level 2)

5 credits (Level 3)

Leads to New Zealand Certificate in Sport Recreation and Exercise (Level 3); 3+2 Sport and Fitness

 Thursdays

Is it for you?

- sales and customer service
- promoting and presenting goods to customers, and using creative skills
- business management
- working with food and drink
- providing accommodation
- planning, organising or promoting sports or fitness activities.

Jobs in service industries:

- bartender, barista
- chef, cook
- housekeeper, kitchen hand
- laundry, hotel/motel manager, receptionist
- waiter/waitress
- customer services/customer relations
- beautician, spa or massage therapist
- hairdresser, barber, nail technician
- retail assistant
- personal trainer, fitness instructor.

Primary Industries

If you like spending time in nature and looking after living things then this could be the industry pathway for you. Whether on the land or in an office, there is a huge range of jobs and a variety of experiences on offer, as well as the opportunity to work in some of the most stunning landscapes in the world.

Agriculture (Level 2)

 Term 1 - 3

 21 credits (Level 2)

 Fridays

Agriculture is a major industry in the Taranaki region and the course content includes elements of sheep and beef farming, biodiversity as well as dairy farming. Elements of farm safety and general good farm practices complete this course.

Leads to Agriculture (Level 3)

Animal Care (Level 2)

 Term 1 - 3

 16 credits (Level 2)

 Fridays

Learn skills in animal handling (with an emphasis on large animals including horses and cattle), safe practices and gain an introduction to general animal care. Pathways exist in New Zealand Certificate in Animal Care (Companion Animals) Level 3 and New Zealand Certificate in Animal Technology (Vet Nursing Assistant).

Leads to Veterinary Nursing & Animal Care - UCOL Level 3 and Level 6 courses

Agriculture (Level 3)

 Term 1 - 3

 20 credits (Level 3)

 Fridays

You will demonstrate knowledge of cattle anatomy and physiology, handle and move livestock, learn to install and maintain fencing and manage risks around the rural workplace.

Leads to New Zealand Certificate in Agriculture Farming Systems (Level 3); New Zealand Certificate in Primary Industries Operational Skills (Level 3)

Conservation Skills (Supporting native plant environments) (Level 2) *(Pending approval)*

 Term 1 - 3

 21 credits (Level 2)

 Thursdays

Are you keen on conservation and New Zealand's natural environment? This course will focus on NZ forest habitats and cover a range of topics including conservation skills, tree management, sustainable forests and native plant environments. Chainsaws, bush skills, plant identification and health and safety will be covered including a focus on native trees and wildlife. Pathways from this course lead to Pest Operations, Forestry and other sustainable courses found in our Agriculture and Horticulture programmes.

Leads to New Zealand Certificate in Forestry Harvesting Operations (Level 3)

Choose this pathway if you enjoy:

- raising and working with animals
- planting, growing and harvesting trees, plants and crops
- driving tractors, motorbikes, boats and heavy machinery
- physical work, and working with your hands
- working with tools, machinery and equipment
- science and research.

Jobs in primary industries:

- caring for and rearing animals
- fruit and vegetable production
- dairy farming
- seed technologist, landscaper
- horse trainer, veterinarian
- looking after or measuring trees
- machines and equipment operator or servicer, heavy vehicle driver
- processing food or seafood,
- supply chain logistics.

Community & Social Services

This is an essential industry for the well-being and safety of our citizens and roles here can be really rewarding. If you want the work you do to matter deeply then this could be the pathway for you. This is an ever-growing sector with demand for workers, and the skills you gain in these roles can help you progress in a wide variety of careers.

Hauora (Level 3)

 Term 1 - 3

 24 credits (Level 3)

 Mondays

Mental health, wellbeing, caregiver and nursing professionals are recognised as essential services and the demand for these professionals is high.

Leads to New Zealand Certificate in Health and Wellbeing (Level 3) Healthcare Assistance Strand; New Zealand Certificate in Health and Wellbeing (Level 4) with Strand in Mental Health & Addiction Support; Bachelor of Nursing

Introduction to Education and Care (Level 3) *(Pending approval)*

 Term 1 - 3

 18 credits (Level 2)

 Thursdays

Do you have a passion for education and supporting others in their learning? This course will start you on the journey to teaching, care and supporting others to learn. The units will include educational theory and practice and there will be many opportunities to engage with student support services, educational centres and public health support.

The course aims to build a basic knowledge and passion for teaching and learning and will enable pathways to Level 3 (to be developed) and onto further study with Educare or into teaching degrees.

Uniformed Services and Policing (Level 3) *(Pending approval)*

 Term 1 - 3

 19 credits (Level 3)

 Fridays

This course is designed to help you learn about all aspects of uniformed services careers including Defence, Fire, Hato Hone St John, Search and Rescue, Coast Guard and the New Zealand Police force.

You will gain a deeper understanding of the options within these careers and what skills and leadership qualities are needed to be successful. The end result will be that you will have the confidence and skills to apply for a career in your selected service.

Choose this pathway if you enjoy:

- working with people of different ages, life stages, abilities and cultures
- counselling and therapy
- community support and care
- diagnosing and treating people
- planning and organising
- health promotion and advice.

Jobs in community and social services:

- careers advisor, community worker, counsellor, early childhood educator, social worker, support worker
- combat/warfare specialist, driver, fire-fighter, medic, pilot, police officer
- ambulance officer/paramedic,
- border protection/bio-security officer, corrections officer, customs officer,
- conservation worker, fisheries officer,
- nurse, nurse aide, midwife,
- health care assistant, health promoter, caregiver.

3 + 2

For Year 13 students who have completed NCEA Level 2.

As part of the 3+2 programme you will spend three days a week at school, and two days a week at WITT Te Pūkenga working toward a Level 3 qualification. You will do this for Terms 1-3, and then in Term 4 you are solely at school to help focus on school exams.

Benefits:

- Gain a FREE and RELEVANT Level 3 tertiary qualification while still at school
- Learn a new subject that may not be available at school
- Study towards NCEA Level 3
- Build on previous achievement and experience at NCEA Level 2
- Gain hands-on experience in a particular career pathway
- Still be enrolled at school easing the transition into the tertiary study environment

What's next?

Higher level of study (i.e. Level 4 and above), apprenticeships or employment.

All courses are run at the New Plymouth campus unless specifically stated. Programmes are subject to change.

Service Industries

New Zealand Certificate in Cookery (Level 3)

 Term 1 - 3	Learn to apply health and safety procedures and fundamental skills to prepare, cook and present a range of basic dishes using wet and dry cooking methods in our fully-equipped kitchens. <i>Leads to New Zealand Certificate in Cookery (Level 4)</i>
 60 credits (Level 3)	
 Mondays and Tuesdays	

New Zealand Certificate in Sport, Recreation and Exercise (Multi-Sector) (Level 3)

 Term 1 - 3	Gain the knowledge and skills needed to operate under direct supervision in support roles within and/or across the sport, recreation and exercise industries. Graduates will be able to operate within a framework of health and wellness in relation to individuals, groups and community needs. <i>Leads to New Zealand Certificate in Exercise (Level 4) with New Zealand Certificate in Outdoor Leadership (Level 4); New Zealand Certificate in Exercise (Level 4)</i>
 46 credits (Level 3)	
 Mondays and Tuesdays	

New Zealand Certificate in Food and Beverage Service (Level 3)

 Term 1 - 3	Learn essential front-of-house skills from the art of coffee making to bar and restaurant service. By working in a real restaurant and café students gain practical knowledge preparing them for industry or further studies. <i>Leads to New Zealand Certificate Food and Beverage service with Strands in Restaurant Service (Level 4)</i>
 60 credits (Level 3)	
 Mondays and Tuesdays	

New Zealand Certificate in Makeup & Skincare (Introduction) (Level 3) (New Plymouth)¹

 Term 1 - 3	Perform a full manicure and pedicure including masks and hand massage. Apply skincare services while learning different skin types, conditions and functions of the skin. Apply make-up for different occasions, assist with sales and promotional activities and gain confidence preparing them for employment in the beauty sector or chosen career pathway. <i>Leads to New Zealand Certificate in Beauty Therapy (Level 4); New Zealand Certificate in Makeup Artistry (Level 4)</i>
 63 credits (Level 3)	
 Mondays and Tuesdays	

¹ All students will be expected to perform services and have services performed on them

Tertiary study at school

If you are in Year 12 or 13 you can start tertiary study while you are still at school. There is a variety of courses to choose from and we can work with you to find the right start to your degree or diploma.

Options include:

- Business Environments
- Business Functions
- Change and Innovation
- Engineering E2E (Level 3)
- Introduction to Accounting and Taxation
- Organisations in an Aotearoa Context

School Leaver Scholarships

Degree Scholarships

WITT Te Pūkenga offers degree level scholarships to eligible Taranaki school leaver applicants. The scholarships cover a year of tuition fees (up to \$7,500).

If you are entitled to the Government Fees-Free year, this scholarship will cover your second year of study which means two years of your study at WITT will be fees-free.

Sport Academy Scholarships

The Academy is designed for school leavers who are ready to start tertiary study while advancing their high-level sports career. Services to these athletes will include individual programme planning, testing and prescription in areas such as exercise, physiology, biomechanics and strength and conditioning.

Academy staff will work with athletes, their coaches and mentors to provide complete support through training and competition.

For more information on available scholarships, visit us online at witt.ac.nz/scholarships/

Are you finishing school?

When it's time to leave school, WITT has a range of engaging and industry-leading diplomas and degrees to give you the skills to build your future career.

Degrees

Bachelor of Accounting

Gain specialised knowledge of accounting and finance in real world work environments to enable you to work successfully across a range of industries in your choice of finance or management positions.

Bachelor of Applied Management

Become a project manager or a human resources or operations manager. Get the skills and knowledge needed to succeed in dynamic and changing environments. This is an interactive, practical degree that provides a solid base for your chosen area of business specialisation.

Bachelor of Culinary Arts*

Learn specialised and innovative culinary techniques with a competitive edge. Business modelling, brand development and marketing strategies will be a feature of your studies. Complete real life projects with local businesses, and develop the skills to apply your knowledge to everyday situations.

Bachelor of Design and Arts*

Gain a competitive edge in the art and design industries learn from the best in the field and gain practical skills through intern projects, drawing, art/design labs, history, theory and professional practice. You will study painting, sculpture, photography, glass and digital arts.

Bachelor of Engineering Technology

Acquire practice-based skills and apply them to engineering science. You will learn to analyse and implement solutions to real-life situations. Meet a need for people who can apply engineering knowledge in industry. Major in Civil or Mechanical engineering.

Bachelor of Nursing

Help meet the need for qualified nurses. Learn about industry opportunities, go beyond traditional health care and create a supportive health environment. Explore the diverse environments and cultural understandings that nurses work within from hospitals and other workplaces.

Bachelor of Social Work¹

Learn about people through their lifespan, societies, and helping traditions from both western and indigenous perspectives. Become a confident, analytical and critically reflective practitioner and gain the knowledge, skills, attitudes and values to work in social services.

* Pending NZQA approval.

¹ Pending NZQA and Social Work Registration Board approval.

Diplomas

NZ Diploma in Art & Design (Level 5)

Develop your skills and knowledge in arts, crafts and design. Use research to inform, critique and present your work. Select and apply a range of processes in arts, craft and/or design situations.

New Zealand Diploma in Business (with strands in Accounting or Leadership and Management)

Acquire business knowledge and skills applicable to operational roles. Contribute to businesses' success by applying expertise in diverse cultural settings.

New Zealand Diploma in Engineering (Civil or Mechanical)

Gain theoretical and practical skills needed to gain employment as an Engineering Technician in the mechanical engineering field. As an Engineering Technician, you will be involved in design and operations.
