Te Korowai Mātauranga

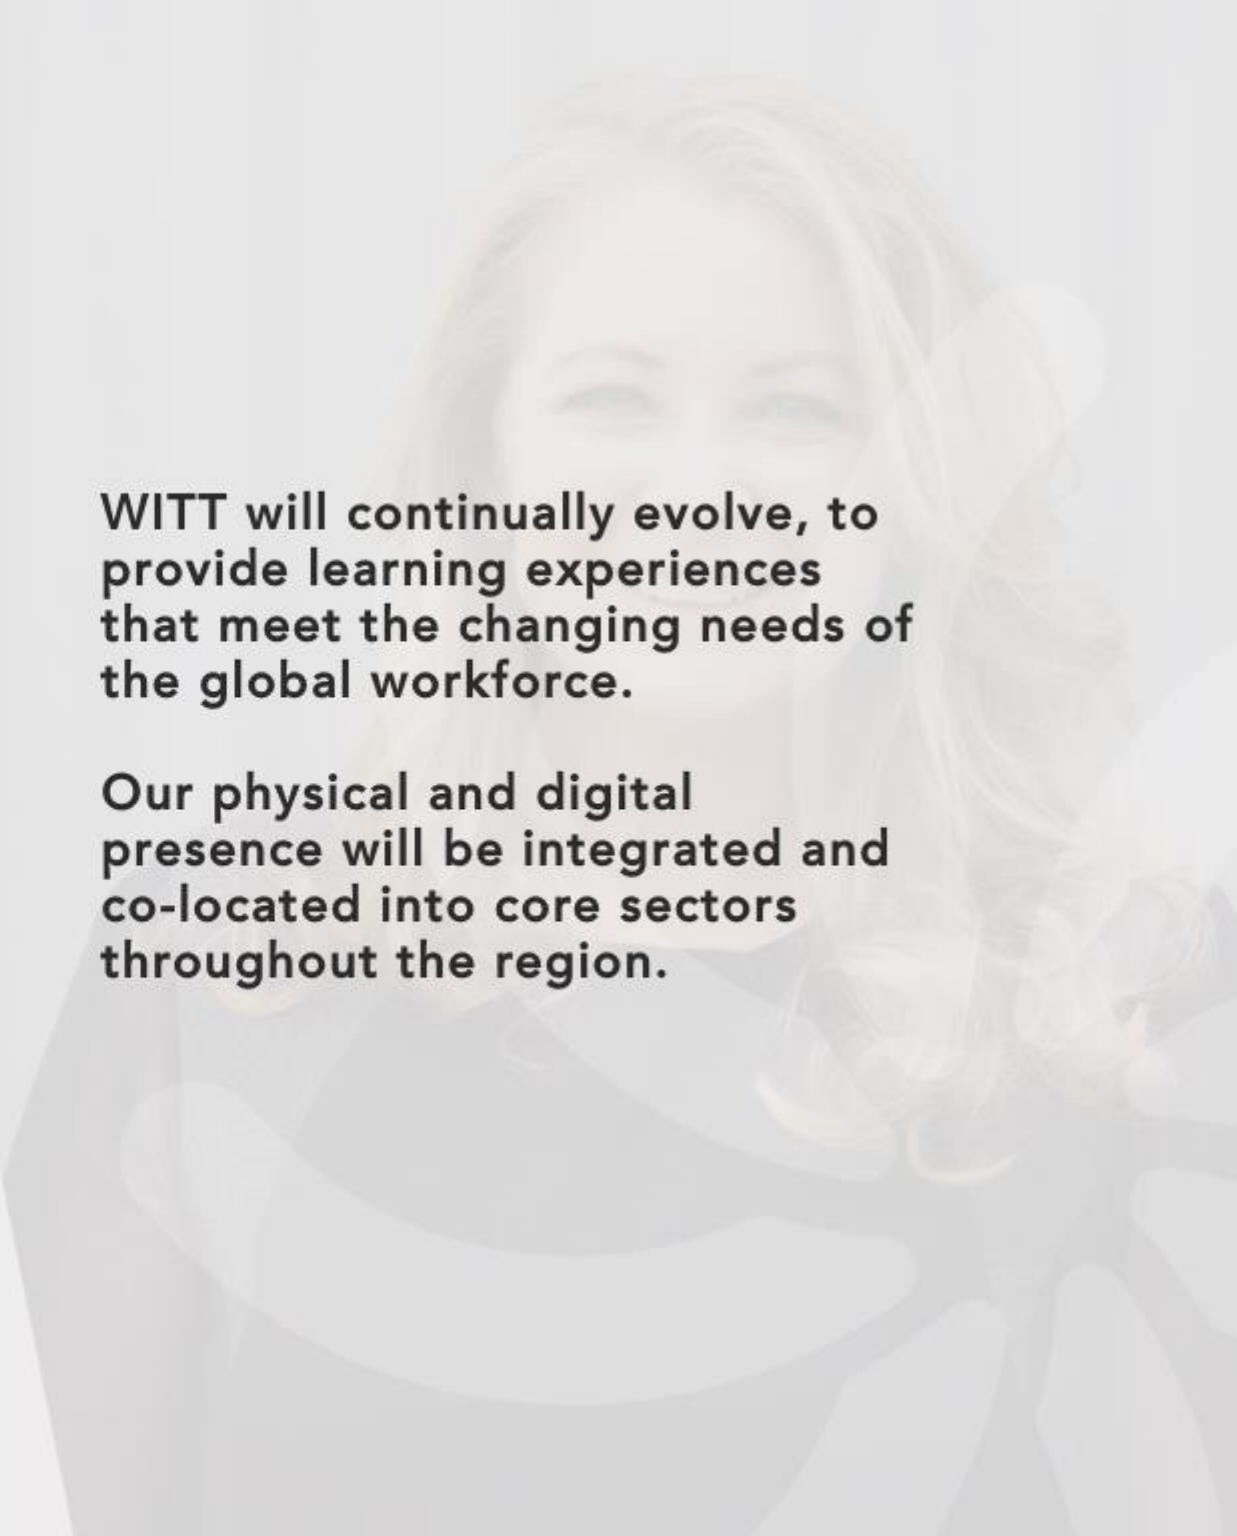

Te Pou Tokomanawa

Lifelong Learning

Our central pole or pou, supporting the ridge pole of our whare.

Lifelong Learning is at the heart of everything we do, from connecting with others, to giving back with care, to growth. We are always developing who we are, what we are, and why we are.

WITT will continually evolve, to provide learning experiences that meet the changing needs of the global workforce.

Our physical and digital presence will be integrated and co-located into core sectors throughout the region.

A vertical decorative bar on the left side of the page. It features a yellow square at the top, followed by a brown rectangular section containing four colorful icons: a purple stylized arrow pointing up, a green spiral, an orange sunburst, and a blue cross-like symbol.

Te Pou Tuarongo

Global Citizenship

Our pou that supports the ridge pole at the back wall of our whare.

We are a connector of people, communities and businesses, linking them to the wider world.

A faded background image showing a group of students in a library or study area, looking at books and papers.

Supported by strong collaborative relationships, WITT will bring our community together and link it to the wider world.

We will be an open access, engaging portal to the world, whether virtually, through artificial intelligence or personal, practical face-to-face class time.

Te Pou Aronui

Sustainability

The pou which represents focus, inclination, desire.

We care for the future of Taranaki and value the privilege of giving back to our communities.

WITT will be the engine room for the continued sustainable growth of the region. WITT staff will be industry credible, qualified adult educators who have a deep understanding of, and affinity for, Te Ao Māori.

WITT will remain kaitiaki of vocational learning for all of our people – we are creative and curious in meeting the needs of all learners.

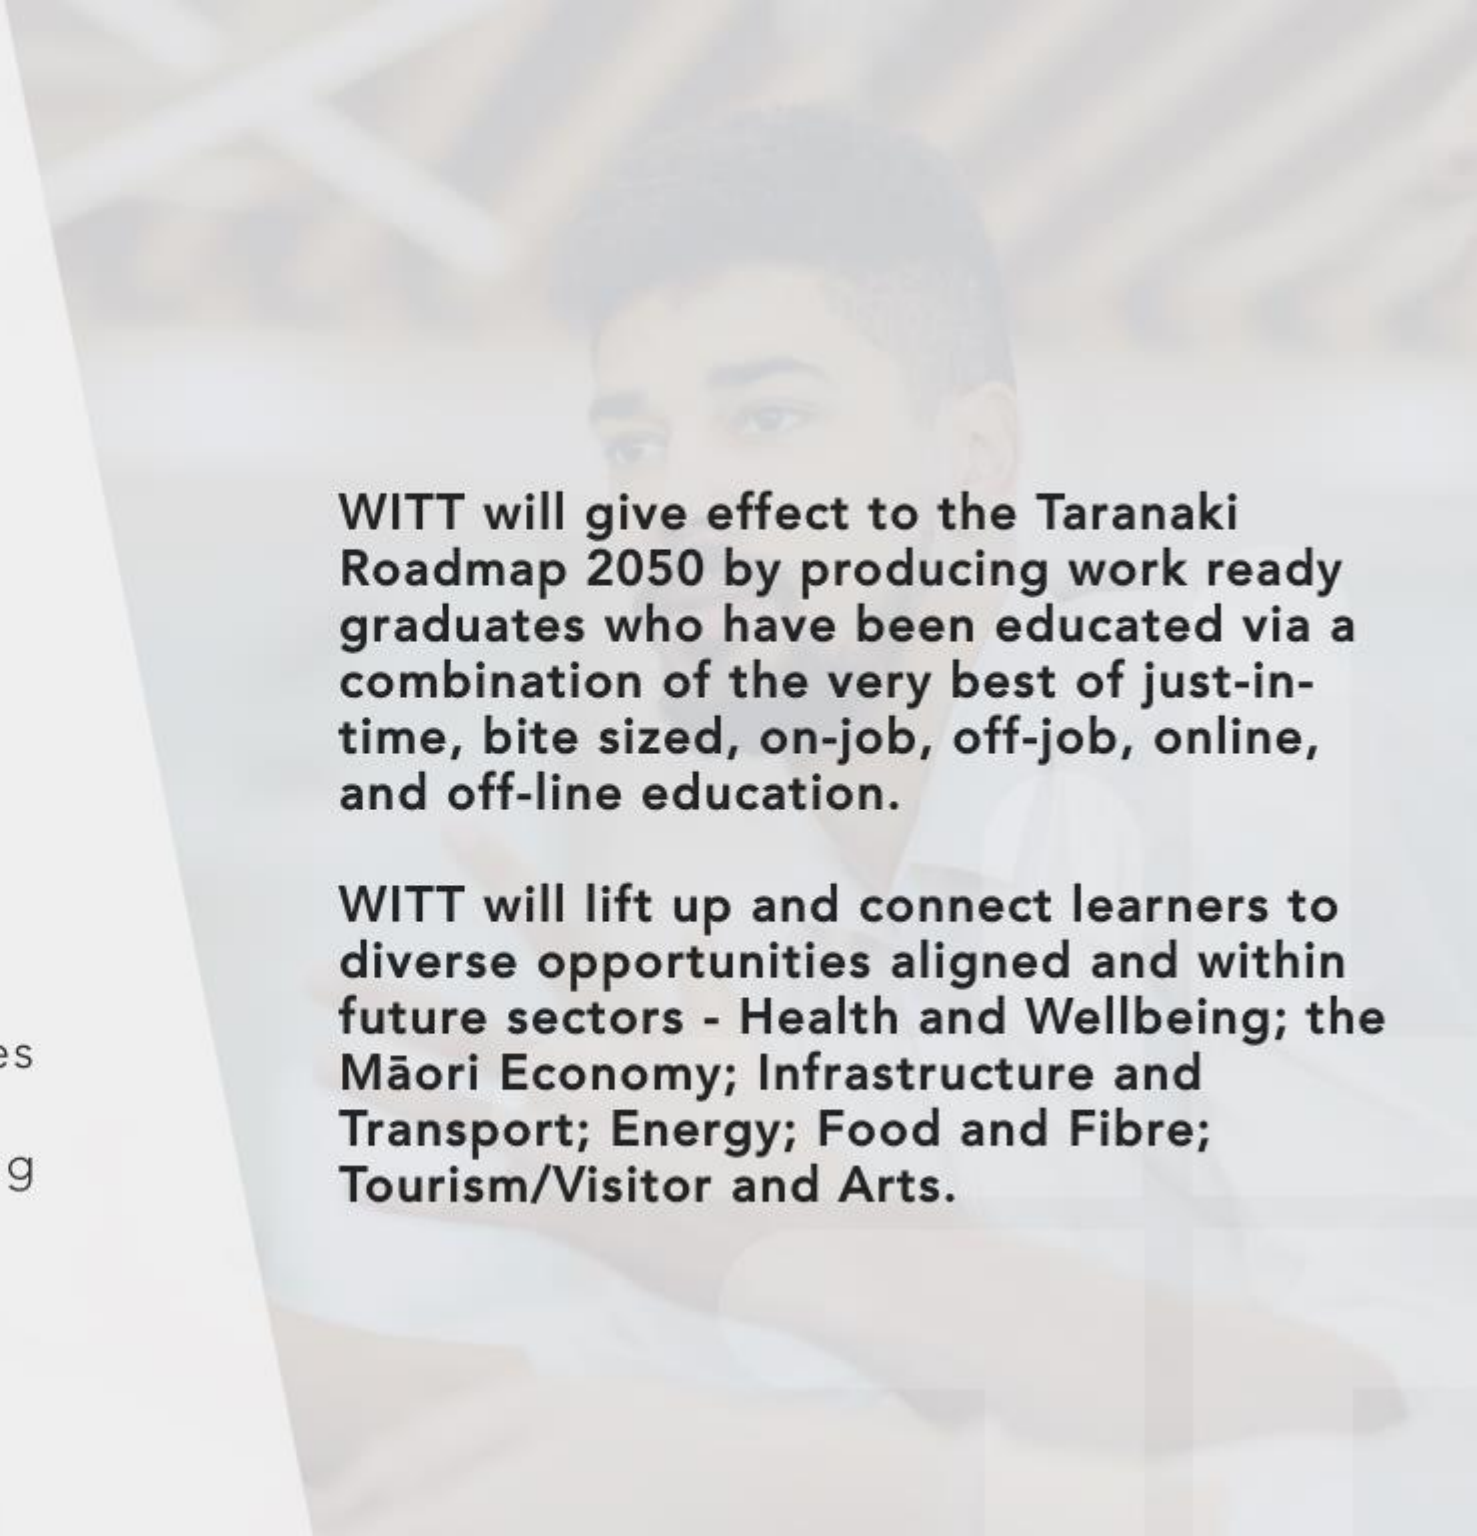

Te Pou Ao

Employment Outcomes

The pou which represents the action of scooping up with both hands, or, to take in quantities.

We build resilience and improve lives by improving wealth and wellbeing outcomes through workplace training and re-training opportunities.

WITT will give effect to the Taranaki Roadmap 2050 by producing work ready graduates who have been educated via a combination of the very best of just-in-time, bite sized, on-job, off-job, online, and off-line education.

WITT will lift up and connect learners to diverse opportunities aligned and within future sectors - Health and Wellbeing; the Māori Economy; Infrastructure and Transport; Energy; Food and Fibre; Tourism/Visitor and Arts.
