

New Zealand Certificate in Construction Trade Skills Level 3

Painting and Plastering Strand

Start your trades career here! Our one year certificate will teach you all the necessary skills to prepare you to be work ready in the wider construction trades sector.

Graduate profile (Outcome)

Graduates will be able to:

- work safely and in accordance with compliance and regulatory requirements in the construction trades sector
- communicate effectively with colleagues and customers within the construction industry
- read and use specifications and drawings to complete simple construction projects
- perform simple calculations to complete a range of familiar tasks in the construction sector

Graduates of the Painting and Plastering strand will also be able to:

- apply generic construction industry terminology and display job role and inter-relationship knowledge while carrying out allied trades tasks
- identify and correctly use hand tools and materials to complete familiar tasks in the allied trades
- carry out assigned project work for allied trades

Work experience

To enhance the students' learning, it is highly recommended that students undertake work experience in the Construction industry.

WITT reserves the rights to withdraw or adjust any of the programmes listed, alter start date or fee schedules, and make any other changes as it may deem desirable or necessary, without prior notice. All programmes are subject to a sufficient number of enrolments and completion of all approval and accreditation requirements.

PROGRAMME INFORMATION

Core Compulsory

CCT3.001

Workplace Safety Frameworks and Practices (excluding Scaffolding)

This course aims to introduce students to the legislative frameworks and requirements for workplace safety in the construction industry and requires students to select and consistently apply safe working practices and effective communication skills as they undertake project based work.

CCT3.002

Skills for Construction Trades (excluding Scaffolding)

In this course students will identify, read, and use specifications and drawings and calculation skills that underpin effective practice in the construction industry.

Painting and Plastering Strand

CCT3.010

Painting and Plastering: Compliance, Terminology and Roles

Students will become familiar with and use generic construction industry terminology and display job role and consenting and compliance knowledge to complete familiar tasks in the allied trades.

CCT3.011

Allied Trade (Plastering & Painting) Project

Students will complete a plastering and painting project to industry standards.

Employment/Cultural/Community pathway

Graduates of this qualification will be able to enter employment in trades within the construction industry as a labourer or an apprentice. With additional training and/or experience they may go on to further roles in the construction industry such as carpenter, joiner, plasterer, painter or roofer.
