Hazardous Areas Theory (Micro-credential) (Level 4)

This three day course provides students with the theoretical knowledge to apply the necessary principles, procedures, and statutory requirements to safely enter and operate in an explosive atmospheres site.

a minimum of 10 students.
Enquire now.

It is designed for those that already hold the NZ Certificate in Electrical Equipment in Explosive Level 4 and require a refresher, experienced personnel that once worked on hazardous sites and moved into management or supervisory roles, operators and workers who do not hold an electrical licence but have the practical experience.

This course is not suitable for beginners. Please refer to our one day short course ideal for anyone that requires an overview on [Explosive Atmospheres / Hazardous Areas](#).

During the course, you'll gain theoretical knowledge and find out how to:

- Demonstrate introductory underpinning knowledge of electrical equipment in explosive atmospheres
- Demonstrate and apply intermediate underpinning knowledge of electrical equipment in explosive atmospheres
- Determine the explosion-protection requirements specified for classified explosive atmospheres
- Report on the integrity of explosion-protected electrical apparatus in explosive atmospheres
- Demonstrate underpinning knowledge of gas detection equipment in explosive atmospheres

This qualification is only offered through WITT, and is available to students in New Plymouth or in-house anywhere in New Zealand.

IN-HOUSE TRAINING

We can deliver this course in-house anywhere in NZ for

NZIHT reserves the rights to withdraw or adjust programmes, alter start date or fee schedules, and make any other changes as it may deem desirable or necessary, without prior notice.
