GRADUATE DIPLOMA IN PROJECT MANAGEMENT

You will develop the theory and practical applications of project management to maximise employment opportunities.

QUALIFICATION OVERVIEW

Your project management expertise will align to the Project Management Body of Knowledge (PMBOK) as defined by the Project Management Institute. This internationally recognised standard will allow your expertise to be utilised across a range of contexts, both within the business field such as human resource management, sales and marketing, information communication technologies and other disciplines such as engineering.

Content includes project management, business finance, operations management, advanced project management, resource integration management and an industry project.

CAREER OPTIONS

Be work ready to be employed in a project management role within your chosen field of expertise.

FURTHER STUDY OPTIONS

Study at postgraduate level.

ENTRY REQUIREMENTS

- Successfully completed a bachelor degree in any field excluding the field of the graduate diploma; or
- Successfully completed a Level 6 or 7 diploma and relevant work and/or life experience (equivalent to a bachelor degree); or
- Evidence of equivalent practical, professional or educational experience. E.g. 3 – 5 years full-time work experience relevant to the business studies and
- ELTS 6.0 (Academic) overall and no less than 5.5 in any band or equivalent.

BENEFITS FOR A PROJECT MANAGER

PAY RATES

\$\$\$

Project Managers usually earn

\$55K-\$135K PER YEAR

Source: Absolute IT, 2017 and Trade Me Jobs, 2016.

JOB OPPORTUNITIES

Chances of getting a job as a project manager are good because constant change means organisations often have projects needing management.

START DATE 16th October 2017

DURATION 1 Year

FEES \$12,000

Level 7

GRADUATE DIPLOMA IN OPERATIONS & PRODUCTION MANAGEMENT

BENEFITS FOR A OPERATIONS & PRODUCTION MANAGER

You will develop the theory and practical applications of operations management for areas such as production manufacturing, services provision, or transport operations.

QUALIFICATION OVERVIEW

You will learn to optimise supply chain relationships and logistics, including considerations from an engineering perspective.

Content includes project management, product development, operations management, resource integration management, an industry project and an elective chosen from human resources, introduction to finance, industrial relations or management.

CAREER OPTIONS

Be work ready to be employed in an operations management role within your chosen field of expertise.

FEES \$12,000

Level 7

WHAT WITT STUDENTS SAY

McKENZIE

BACHELOR OF APPLIED MANAGEMENT

"I chose WITT to study at not only because they offered scholarships but also because of the class sizes. At WITT you are not just a number and the tutors know who you and genuinely want to see you succeed while still holding a high quality of learning."

ZANE

BACHELOR OF APPLIED MANAGEMENT

"I think WITT is great. It has amazing staff, tutors, and facilities. It has a university level of study with the intimacy of classroom setting which is so beneficial to learning. Also, it's all based in our wonderful Taranaki region".

MARIANA

GRADUATE DIPLOMA IN PROJECT MANAGEMENT

"I had an amazing experience at WITT, very challenging, but at the same time highly rewarding.

I engaged in a new field of studies to complement my skills in project management and from that I have gained knowledge and practical experience.

It gave me the opportunity and support to face the challenges of a first New Zealand job.

Besides studies, it was a great environment to meet new friends and have a sense of community."

LAARNI

GRADUATE DIPLOMA IN HUMAN RESOURCE MANAGEMENT

"WITT provides students with tools they need to learn - from comfortable classrooms or physical facilities to approachable tutors and readily available student services.
